Thank you for your inquiry to the Yucca Mountain Las Vegas Information Center. This is in response to your request for copy of a contract between Nevada and the federal government for the use and characterization of Yucca Mountain.

The property upon which the proposed repository would be constructed is federal land currently under the control of three entities: the U.S. Bureau of Land Management, the U.S. Air Force, and the U.S. Department Of Energy. Through the Nuclear Waste Policy Act of 1982, Congress authorized the federal government to study Yucca Mountain. No federal to state contract exists. Per your request, we have mailed a copy of the Act to your post office box.

If you have additional questions regarding the Yucca Mountain Project, please visit our website at <<http://www.ocrwm.doe.gov>>, or call our toll-free information line at 1-800-225-6972.
